

# Sapphire brief

GIA ALUMNI  
MEMBER

Member of  
Gemmological Association and Gem  
Testing Laboratory of Great Britain

GGTL No: 152208

Date: 31/10/2022

Dimensions: 7.00x5.13x4.15mm

Weight: 1.32ct

Cut: Mixed Cut

Shape: Cushion Rectangular

Colour: Slightly Orangish Pink

Species: NATURAL CORUNDUM

Variety: UN-HEATED PADPARADSCHA

Comment: No Indication of Heating

Historically, many coloured gemstones have been enhanced to improve their appearance. Thermal enhancement of Rubies and Sapphires is considered stable and permanent under normal wear and handling conditions and it is generally accepted by the international gem and jewellery trade.

This certificate issued after careful examination of the stone with specialized gemological instruments to the best of our knowledge following professional standards.

This report only contain physical data and standard treatment made to the stone.  
(on request)

The findings mentioned this report reflect the state of the gemstone at the time of examination.

**Consultant Gemologist**

**Mrs. Susitha Kamkanamge**
