

GGTL No: 210495 **Date:** 08/04/2024
Dimensions: 10.18x6.96x4.79mm
Carat Weight: 3.08ct
Cut: Mixed Cut
Shape: Fancy
Colour: Light Blue

Species: NATURAL CORUNDUM
Variety: UN-HEATED FANCY SAPPHIRE
Comments: No Indication of Heating

Historically, many coloured gemstones have been enhanced to improve their appearance. Thermal enhancement of Rubies and Sapphires is considered stable and permanent under normal wear and handling conditions and it is generally accepted by the international gem and jewellery trade.

This certificate issued after careful examination of the stone with specialized gemological instruments to the best of our knowledge following professional standards.

This report only contains physical data and standard treatment made to the stone. (on request)

The findings mentioned in this report reflects the state of the gemstone at the time of examination.
