Sapphire

Sapphire is mostly thought of as blue in color, however the name refers to every color of the mineral corundum, except red (which is ruby). The name comes from the Greek saphireios, which means "bright blue stone." Ancient Mediterranean cultures prized sapphire above all other gems. Today, the most highly prized blue sapphire is sourced from Kashmir, India. Other significant sources include Myanmar, Thailand, Sri Lanka, and Madagascar.

Characteristics

Mineral	Mohs Hardness	Toughness	Birthstone
Corundum	9	Excellent	September
